How does schedule work:

- Station 1: Examination room 1 in hospital (2nd building)
- Station 2: Examination room 2 in hospital (2nd building)
- Station 3: Radiography room (2nd building)
- Station 4: Scintigraphy room (1st building)
- Station 5: Physiotherapy room (1st building)
- Station 6: Quarantaine Scintigraphy (1st building)

Example

Group A1 starts at Station 1, rotates to Station 2 etc.
(Group A6 rotates to Station 1, etc.)

The organisation hopes this schedule fits in everyone's expectation.

Changes are possible: switch with other people and let Tessa Pieffers know by Saturday afternoon 3 pm.

This schedule will be respected: no extra people allowed in a group.

Parallelsessions see Programme.
