Our use of collected data

Use of our services

When you register for one of our services, we ask you to provide personal data. This data is used to be able to render the service. The data is saved on SMDC-NutraCeuticals N.V.'s own secured servers or those of a third party. We shall not combine this data with other personal data we have collected.

Communication

When you send an email or other messages to us, it is possible that we save those messages. We sometimes ask you to provide personal data necessary for the relevant situation. This data enables us to process your questions and respond to your requests. The data is saved on Sporthorse Medical Diagnostic Centre B.V.'s own secured servers or those of a third party. We shall not combine this data with other personal data we have collected.

Cookies

We collect data for research to get a better insight into our customers, to enable us to tailor our services to our customer's needs. This website uses 'cookies' (text files that are placed on your computer) to help the website analyse the website activity. The information with respect to your use of the website, which is generated by the cookie, may be transferred to Sporthorse Medical Diagnostic Centre B.V.'s own secured servers or those of a third party. We use this information to evaluate the use of the website, to establish reports on the website activity and to offer other services with respect to website activity and internet use.

Purposes

We do not collect or use data for other purposes than the purposes as defined in the privacy protocol, unless we have obtained your prior consent.

Third parties

We do not share data with third parties. Data shall only be used for the purpose of the relevant application and shall not be disseminated in any other way. Furthermore, the data may be shared internally in some cases. Our employees are required to respect the confidentiality of your data.

Amendments

This privacy protocol is tailored to the use of and possibilities on this site. Any adjustments to and/or amendments of this site could lead to changes in the privacy protocol. We therefore advise you to regularly consult this privacy protocol.
